

Fan Chi Yan from 5 Matthew

Chairperson of Careers Team (2020-2021)

Sister Lucy, Principal, teachers and fellow students,

I am Fan Chi Yan from 5 Matthew, the Chairperson of Careers Team this year.

First and foremost, I would like to thank all the teachers and schoolmates who participated in our activities last year. Without your effort, those events would not have achieved such success.

Our team aims to provide students with information about careers development and further education opportunities through group and individual advisory services. Students are guided to explore their interests, capabilities, needs and aspirations. Various career-related activities are held to help students familiarise themselves with further education opportunities, and the requirements of different types of jobs, so that the students can make wise and appropriate decisions for their life planning.

Our team organised several activities covering different topics for different forms last year. We held life planning workshops, for example, “Dreams Jobs” and “Choice and Life Journey” to broaden students’ perspective on their career paths. We also held Multi Pathway Online Talk for Form Five, a JUPAS talk for Form Six, a Job Shadowing Scheme for Form Three to Form Five students, and YouTuber Actual Plan Workshops for Form One to Form Three students. Most participants reflected that they enjoyed these activities.

In the coming year, our team, including our teachers, careers prefects and ambassadors, will distribute to students the latest education and career-related information via different media, like notice board, web page, Facebook page, Whatsapp and Google Classroom. You are always welcome to visit the Careers Room

on the Group Floor. Furthermore, we are going to hold a wide variety of activities, for example, joint school university mock interviews, the leadership training workshops, life planning workshops, Form Four subject selection sharing, Careers Days, Disneyland workshops, careers talks and firm visits, to make sure that students are acquainted with the current employment situation in Hong Kong and have adequate preparation for their future.

We will endeavour to provide you with the latest and best career-related information and experience.

I wish you all a glorious prospect. Thank you!
