(6) The International Competitions and Assessments for Schools (ICAS) English and Mathematics Tests

Our school strongly recommends Form One and Form Two students to sit The International Competitions and Assessments for Schools (ICAS) English and Mathematics tests. These ICAS papers are skills-based. The results show the student's relative position in the test population and can help our school identify gifted students for further enrichment as well as to identify students that require immediate attention. Each student will receive an individual report containing detailed diagnostic data and a password to access their results online which can be viewed and downloaded. Our school will help students to complete the registration process. The entry fee per student for each paper is HK\$60. The Assessment will be held in March during the Unified Test. Details will be announced later.
